HYBRID ENGINE PERFORMANCE TRAINER Prius Gen III with Technology Package Model: MEG007-HYB-TP

DESCRIPTION:

The driveable MEG007-HYB trainer is constructed from a GEN III Toyota Prius hybrid vehicle. This trainer includes a complete operational engine with built-in fault simulation, drive train, ECM computer system, transaxle/transmission, suspension, front brakes, electrical and exhaust systems, air conditioning, fully functional dashboard, and Advanced Technology Package. All engine components and sub-systems, such as fuel, emission control and electronic controls are left intact for training. The exhaust system, including the catalytic converter and muffler system, is connected and functional. A separate fuel tank with the fuel pump and the necessary fuel lines will be supplied.

FEATURES:

- Fault Insertion Box with 16 total faults
- Breakout Box
- High Voltage Training
- ADAS Training with Advanced Technology Package

The following features are included where applicable:

- Heads-Up Display (HUD)
- Dynamic Radar Cruise Control (DRCC)
